- **804** Congressional district residents enrolled at JH
- **$7.5M** Financial aid to students residing in the congressional district
- **645,163** Patient visits by congressional district residents to JH health care providers

Providing access to high-quality health care

Residents of the Second Congressional District have access to a full range of outpatient services at two locations – the Johns Hopkins Health Care and Surgery Centers at Green Spring Station in Lutherville and at White Marsh. Both sites offer primary care provided through Johns Hopkins Community Physicians (JHCP), as well as more specialized services such as internal medicine, obstetrics and gynecology, ophthalmology, otolaryngology and pediatrics, and several types of surgery. Both sites also include a walk-in urgent care center open 365 days a year, a pharmacy and an optical shop. Primary care and some specialty services are also available at two other locations in the District – Greater Dundalk (in Baltimore County) and Water’s Edge (in Harford County).

Also located in the Second District is the headquarters of Johns Hopkins HealthCare, a Johns Hopkins subsidiary that in 2014 provided comprehensive health care coverage to 340,285 Maryland residents, including more than 56,800 residents of the Second District.
