Sponsor: Archer Foundation
Program: Early Molecular Measurements of Neurodegenerative Disease/Cognitive Decline
Estimated Award Amount: $300,000 over 3 years
JHU Nomination Limit: 1
For more detailed information: Award in Brain Research

We seek to advance progress toward the development of new therapies for neurodegenerative disease and welcome innovative ideas and technologies to advance this goal. This Award will be to support the development of technologies and tools that could be used to diagnose and monitor progression in neurodegenerative disease. The proposal should describe how the project will advance diagnosis and early detection of neurodegenerative disease.

Eligibility & Requirements:

- The Archer Award is awarded to a scientific team that has demonstrated superior quality of scientific research in the field of neuroscience.

Internal Nomination Process:

Interested applicants should send the following documents in sequence in one PDF to resapp@jhu.edu no later than 4 p.m. on August 27, 2015:

1. JHU Limited Submission Cover Sheet
2. Abstract of project (no more than one page double spaced)
3. Summary of project (no more than four pages single spaced)
4. Biographical sketch/CV (no more than four pages)
5. Proposed budget (no more than two pages)

Each applicant should expect to receive a confirmation of receipt of their materials. If an applicant does not receive an acknowledgement, or has any questions, please contact Janet Palmer via resapp@jhu.edu, or by phone to 410-516-5917.
