The NIMHD invites applications for Transdisciplinary Collaborative Centers (TCCs) for health disparities research exploring the potential for precision medicine - an emerging approach that takes into account individual variability in genes, environment, and lifestyle - to promote health equity and reduce health disparities. Priorities include: 1) development of new tools and analytic methods for integrating patient data with information about contextual factors acting at the community or population level to influence health; 2) development of pharmacogenomic and other precision medicine tools to identify critical biomarkers for disease progression and drug responses in diverse populations; 3) translation of pharmacogenomic discoveries into effective treatment or clinical practice; and 4) investigation of facilitators and barriers to implementing precision medicine approaches in disadvantaged populations.

Eligibility & Requirements:

- All PD(s)/PI(s) must have an eRA Commons account; no other PI restrictions.

Internal Nomination Process:

Interested applicants should send the following documents in sequence in one PDF to resapp@jhu.edu no later than 4 p.m. on July 24, 2015:

1. JHU Limited Submission Cover Sheet
2. Abstract (one page, double-spaced)
3. Proposal (maximum of four pages of text only, single spaced: 12-pt font and one-inch margins)  
   (Note: figures, tables, and other reference material should not be included as text)
4. Curriculum Vitae of investigator, including current external research support and publications
5. Budget (two pages maximum)
6. Letters of Recommendation from the Department Chair/Director  
   (Note: Letters of Recommendation can be submitted separately to resapp@jhu.edu stating your name in the subject line)

Each applicant should expect to receive a confirmation of receipt of their materials. If an applicant does not receive an acknowledgement, or has any questions, please contact Janet Palmer via resapp@jhu.edu, or by phone to 410-516-5917.
