The main objective of the Minority Global Health Disparities Research Program (MHIRT) is to encourage students to pursue biomedical and biobehavioral research that address health disparities in the U.S. and developing countries.

Research opportunities are available in:

- **Australia**  ➔ The Biology of Stress
- **Cape Town, South Africa**  ➔ Violence against Women and Women's Health
- **Durban South Africa**  ➔ HIV/AIDS and Adolescent Health
- **Goteborg, Sweden (A)**  ➔ Pain Health Status and Quality of Life
- **Goteborg, Sweden (B)**  ➔ Pain, Activity and Functional Status/Older Adults
- **Seoul, Korea**  ➔ Cardiovascular Health Promotion
- **Yanji, China**  ➔ Chronic Disease Management
- **St. Thomas, Virgin Islands**  ➔ HIV/AIDS and Violence against Women

If you are interested in a summer research experience abroad under the supervision of U.S. and foreign research faculty and can demonstrate a dedication and interest in addressing health disparities in the U.S. and abroad, please contact the program below for an application packet.
