I. Welcome and History of the Council

The meeting was called to order and Chair Gwen Boyd gave her welcome. An overview of the Council’s achievements since its formation was presented. Vice Provost Caroline Laguerre-Brown took over as facilitator for the retreat.

II. Introductions

Each person introduced him/herself, told which unit they represented, how long they had served on the Council, and what their expectations were for the coming year.

III. Committees

Ms. Laguerre-Brown outlined the committees from the previous Council year. There are four standing committees: Diversity Conference, Awards Recognition, Membership Nominations and Climate Survey. The working committees were Assessments, Community Partnership, Ombuds and Stop the Clock. Following discussion it was determined that the Ombuds sub-committee will conclude its tenure and the Stop the Clock Committee will submit its final report and conclude its tenure.

In addition to the Assessments and Community Partnerships sub-committees, LGBT Resource Center, Training and Education and Retention will become new subcommittees. Members discussed lack of representation on Disabilities or Development and agreed to add sub-committees in these areas.

IV. Small Groups

Members broke into small groups, one for each sub-committee, to generate a list of deliverables/action items that could reasonably be achieved during this academic year.
