The objective of the FY 2015 FP&S Program is to award grants directly to eligible applicants in order to carry out fire prevention and education, fire code enforcement, fire and arson investigation, and firefighter safety, health programming, and prevention efforts.

The National Preparedness System is the instrument the nation employs to build, sustain, and deliver core capabilities in order to achieve the National Preparedness Goal (Goal) of a secure and resilient Nation. Complex and far-reaching threats and hazards require a collaborative and whole community approach to national preparedness that engages individuals, families, communities, private and nonprofit sectors, faith-based organizations, and all levels of government. The guidance, programs, processes, and systems that support each component of the National Preparedness System allow for the integration of preparedness efforts that build, sustain, and deliver core capabilities and achieve the desired outcomes identified in the Goal while maintaining the civil rights of individuals.

The FY 2015 FP&S Grant Program plays an important role in the implementation of the National Preparedness System by supporting the building, sustainment, and delivery of core capabilities essential to achieving the Goal of a secure and resilient nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government.
