**JHU Nomination Limit:** 2

**For More Detailed Information:** [Greenwall Faculty Scholars Program](#)

---

**Opportunity Summary**

The Greenwall Faculty Scholars Program in Bioethics is a career development award to enable junior faculty members to carry out innovative bioethics research to help resolve pressing ethical issues in clinical care, biomedical research, and public policy.

Scholars and Alumni/ae attend twice-yearly meetings, where they present their work in progress, receive feedback and mentoring from the Faculty Scholars Program Committee and other Scholars, and have the opportunity to develop collaborations with other researchers. The ongoing involvement of Alumni/ae with the Program provides them ongoing opportunities for professional development and feedback and engages them in mentoring of younger Scholars.

**Eligibility & Requirements:**

- Applicants must be junior faculty members holding at least a 60% appointment in a tenure series or its equivalent at a university or non-profit research institute in the United States. Priority will be given to applicants who have not yet been considered for tenure, who have not received a comparable career development award, and whose work will have an impact on public policy, biomedical research, or clinical practice.
- Faculty Scholars will be selected on the basis of their achievements, the strength of their research project, their commitment to the field of bioethics, and support from their home institution, including after the end of this award. While the amount and quality of an applicant’s research in bioethics will count favorably towards his/her application, outstanding candidates with less direct experience in bioethics will also be considered.
- Priority will be given to applicants whose research addresses innovative and emerging topics. Lower priority will be given to applicants who are primarily carrying out institutional change, educational reform, or theoretical bioethics research.
- Please see the [Request for Proposals](#) regarding restrictions on activities that will not be funded.

**Internal Nomination Process:**

Interested applicants should send the following documents **in sequence in one PDF titled, “PI Last Name, PI’s Institution, Project Title”** to resapp@jhu.edu no later than **4 p.m. on September 27, 2016**:

1. **JHU Limited Submission Cover Sheet**
2. A three-page, single-spaced letter of intent, with one-inch margins and font size no smaller than 12 point, that includes:
   a. A description of the research proposal, particularly its significance
   b. How the research will be carried out and how it is likely to have an impact on public policy, clinical practice, or biomedical research
   c. A personal statement describing the applicant’s goals in the field of bioethics
3. **Curriculum Vitae,** no longer than three single-spaced pages

Each applicant should expect to receive a confirmation of receipt of their materials. Applicants not receiving an acknowledgement, or having any questions, should contact Brittany McMahon via resapp@jhu.edu.
