

JOHNS HOPKINS UNIVERSITY, INSTITUTIONAL RESEARCH

Johns Hopkins University Facts 2015-16

History

Baltimore merchant Johns Hopkins died on Christmas Eve 1873, leaving \$7 million to be divided between a university and a hospital that would bear his name. Today, these interconnected institutions remain among the world's great resources for higher education, research, patient care and public service. The Johns Hopkins University opened in 1876 as America's first research university, founded for the express purpose of expanding knowledge and putting that knowledge to work for the good of humanity.

Campuses

The Homewood campus, including schools of Arts and Sciences, Engineering, and Education, rests on 140 acres in northern Baltimore. Other Baltimore area campuses include the schools of Medicine, Nursing and Public Health in east Baltimore, the Peabody Institute in Mt. Vernon, and Carey Business School in Harbor East. The School of Advanced International Studies is located in Washington, D.C. There are two part-time graduate studies programs, Advanced Academic Programs and Engineering for Professionals, primarily based on-line. The Applied Physics Laboratory for research is located between Baltimore and Washington. The 36-acre Montgomery County campus offers more than 60 part-time degree programs.

Academic Divisions

Krieger School of Arts and Sciences (1876) Advanced Academic Programs (1992) Whiting School of Engineering (1886) Engineering for Professionals (1983) Peabody Institute (1857, joins Hopkins 1977) Carey Business School (1916, indep 2007)	School of Education (1909, indep 2007) School for Advanced International Studies (1944) School of Medicine (1889) School of Nursing (1889 with Medicine, indep 1984) Bloomberg School of Public Health (1916)
---	---

Date indicates earliest courses in subject area. The School for Professional Studies in Business and Education separated into two independent schools (The Carey Business School and The School of Education) in fall 2007.
